SUMMARY

With two years of experience in web development, I'm seeking a meaningful web developer position with the opportunity to upskill and gain new insights

WORK EXPERIENCE

WEB DEVELOPER • TORONTO GRACE HEALTH CENTRE • NOV 2019 - PRESENT

- Led an increase in efficiency of physical reports management by 90% by automating scheduled report-printing via full-stack web app using MEVN and Selenium
- Increased screening productivity by 80% by developing a responsive self-screening web app for hospital visitors using Nuxt.js, Vue.js, HTML and CSS (<https://tghcscreen.web.app/>)
- Leveraged knowledge in Full Stack Web Development, MongoDB, Express.js, Vue.js framework (+ Nuxt.js), Node.js, MySQL, moment.js, Selenium, Chokidar, Postman.

EDUCATION

Computer Engineering, BSc, University of Toronto (Pursuing)

WEB DEVELOPER • DIVVY, UNIVERSITY CAPSTONE PROJECT • 2018

- Developed a frontend web app to facilitate users with reading eTextbook PDFs, highlighting texts, writing per-page notes and sharing those with their friends on our platform by using Vue.js and PDF.js
- Spearheaded firebase to store PDF files in firebase storage, authenticate users and host the web
- Researched and documented project proposal, Gantt charts, progress reports, UML design diagram, my individual presentation speech and the final report
- Leveraged knowledge in Iterative development, Vue.js, Firebase, PDF.js

WEB DEVELOPER • TEENSRV, UNIVERSITY PROJECT • 2018

- Developed a full stack of 'jobs resource' using Ruby on Rails, bootstrap, SQLite and html to allow clients to create jobs for teenagers to serve
- Leveraged knowledge in Ruby on Rails, SQLite, RESTful API, MVC-model, html, css, bootstrap

WEBSITE + PORTFOLIO • [HTTPS://TENZINT.GITHUB.IO](https://tenzint.github.io)

- Developed a reactive and responsive front-end-only web app using Vue.js
- Utilized: Vue.js, Google cloud storage, html5, css3, github web hosting

SKILLS

Vue.js, Node.js, HTML/CSS, MongoDB, SQL, Git
